Programming edits: When the ISD code is out of range or blank, a *fatal error* is reported.

Fatal errors occur when the field is blank or contains an invalid number.

Message: Operating ISD/ESA number is blank or is not a valid ISD/ESA number. Check the School Code Master (<http://cepi.state.mi.us/scm>) for the correct number. Note: Single-digit numbers must have a leading zero.

Warning (none)

Definition: These codes are the state assigned ISD/ESA numbers. Enter into the field the code of the ISD/ESA that has the operating district or program the student is attending. If the student is attending an ISD/ESA outside of the resident ISD/ESA, use the code for the operating ISD/ESA in which the student is attending.

Definition: Enter the county code ~~with which the district in Field #3 is affiliated in which the administrative or central office of the district in Field 3: Operating District Number is physically located. For Public School Academies, report the county code in which the PSA building is physically located.~~

Field 3: Operating District Number

Submission Cycle:	Fall, spring and end of year
Field use:	In the future, this line will explain the specific reporting use.
State of Michigan office contact:	DIT Client Service Center, 517-335-0505 or help-desk@mi.gov
Field specification:	Five-character, right-justified, zero fill, leading zero
Record position/type:	005-009, integer
Database field name:	OperatingDistrict
SIF tag:	<>
Code/format:	Official School Code Master (NNNNN)
Dependencies with other fields:	In the future, this line will explain the dependencies between this field and others.

Programming edits: When the Local Educational Agency or Intermediate School District code is wrong or blank, a *fatal error* is reported.

Fatal errors occur when the field is blank or contains an invalid number.

Message: Operating District number is blank or is not a valid district number. Check the School Code Master (<http://cepi.state.mi.us/scm>) for the correct number. Note: Four-digit numbers must have a leading zero.

Warning (none)

Definition: This is the state-assigned, five-digit code for the district submitting the student data. It is the district to which any applicable funds (state or federal) will be sent. All students for whom the district receives any state or federal funds should be reported.

Every student record for a single district should have the same operating district number. The operating district may, however, differ from the resident LEA number (Field 4).

The School Code Master can be found at: <http://cepi.state.mi.us/scm>.

Send questions or comments regarding this field to help-desk@mi.gov.

Common entry errors: Wrong LEA or ISD number; not in the official School Code Master.

Field 4: Resident LEA Number

Submission Cycle:	Fall, spring and end of year
Field use:	In the future, this line will explain the specific reporting use.
State of Michigan office contact:	DIT Client Service Center, 517-335-0505 or help-desk@mi.gov
Field specification:	Five-character, right-justified, zero fill, leading zero
Record position/type:	010-014, integer
Database field name:	ResidentLEA
SIF tag:	<>
Code/format:	Official School Code Master (NNNNN)
Dependencies with other fields:	In the future, this line will explain the dependencies between this field and others.

Programming edits: The resident LEA number must **not** equal the operating district number for PSA students. When the LEA code is wrong, or if Field 4: Resident LEA Number is blank and the third position of Field 125: Program Eligibility/Participation II does not contain a “1” (out-of-state student), a *fatal error* is reported.

Fatal errors occur when the field is blank or contains an invalid number. For PSAs, this field must contain an actual LEA number. It cannot contain: “00000,” an ISD number, a PSA number, nor can it be the same as the Field 3: Operating District Number.

Message: Resident LEA number is blank or is not a valid number. Check the School Code Master (<http://cepi.state.mi.us/scm>) for the correct number. Note: Single-digit numbers must have a leading zero. Also, the resident LEA number must not equal the operating district number for PSA students.

Warning (none)

Definition: This is the state-assigned, five-digit code for the district in which the student resides. This number may differ from the operating district if a student is enrolled in multiple districts (with total Full-Time Equivalency (FTE) less than or equal to “1.00”). The two numbers may also differ if a student takes part in schools of choice, charter schools, or certain other programs.

For Public School Academies (PSAs), the resident Local Education Agency (LEA) number is the five-digit code of the public school district in which the student resides. For instance, if a PSA student lives within the boundaries of the Detroit Public Schools, then the resident LEA number is Detroit’s five-digit code. In the case of juvenile detention facilities operated by the ISD, the resident LEA number is the district in which the facility is located.

The School Code Master can be found at: <http://cepi.state.mi.us/scm>.

Common entry errors: Wrong LEA number.

Field 5: School or Facility

Submission Cycle:	Fall, spring and end of year
Field use:	In the future, this line will explain the specific reporting use.
State of Michigan office contact:	DIT Client Service Center, 517-335-0505 or help-desk@mi.gov
Field specification:	Five-character, right-justified, zero fill, leading zero
Record position/type:	015-019, integer
Database field name:	SchoolUnit
SIF tag:	<>
Code/format:	Official School Code Master (NNNNN)
Dependencies with other fields:	In the future, this line will explain the dependencies between this field and others.

Programming edits: When the school code is blank or not in the official School Code Master, a *fatal error* is reported. It must also be within the Field 3: Operating District Number.

Any non-public school code number is a legitimate number for any ISD or LEA/PSA. Further, ISDs may report the school code for buildings in any of their constituent districts.

No FTE may be claimed for buildings reported as closed as of the most recent count date.

Fatal errors occur when the School Code Master number is blank, or if the School Code Master number is not an official number for the operating district.

Message: The School Code Master number is either blank or is not an official number for the operating district. Please check the School Code Master (<http://cepi.state.mi.us/scm>) for the correct number. Note: Four-digit numbers must become five-digit numbers by adding a leading zero.

Warning (none)

Definition: These codes are the state-assigned numbers in the official School Code Master. *This field is the primary key (i.e., the relational link) to all five core data sets in the MEIS warehouse.* Send questions or comments regarding this field to help-desk@mi.gov.

Schools: For the purposes of the School Code Master, a school is a logical unit (not necessarily a physical building) that generally can be defined by eight characteristics:

- Administrators. A school has one or more administrators or directors, usually called a principal(s) who reports to a district-level superintendent or assistant superintendent.
- Teachers. A school has one or more persons certified to provide K–12 instructions.
- Students. A school has one or more students in grades K–12.
- Curriculum. Instruction is based on a systematic framework or approach according to grade level and content. A school includes a curriculum for one or more grades, usually from kindergarten through

twelfth grade. In some cases, schools include specialized curricula for targeted populations of students.

- Hours of instruction. A school satisfies the minimum number of days and clock hours of instruction as required by law.
- Compliance with Michigan Compiled Laws. The administrator of a school is responsible for ensuring the school's compliance with Michigan Compiled Laws. A school complies with or satisfies the regulations and policies, educational and otherwise, of the state of Michigan. It is the school that takes responsibility for implementing federal and state laws as well as local school board policy.
- Membership. A school submits the appropriate data to the central office administration for calculation and submission of pupil membership for State School Aid.
- Assessment. A school administers the Michigan Educational Assessment Program (MEAP) or an alternate assessment at benchmarked grades.

Programs: Programs are different from schools. The following are generally true about a program:

- The primary purpose is education.
- The administrator, supervisor, coordinator, or director reports to a principal or another administrator, usually not to the district superintendent.
- Teachers may have special endorsements beyond those normally required for K–12 education.
- Students are referred by another public agency/school and are expected to enter or return to general education.
- Students are a targeted or special population, expected to remain for a limited duration, and attend on a part-time basis.
- The curriculum may be modified to cover only a selected portion of the standard K–12 curriculum based on the targeted population.
- The location does not administer the MEAP at benchmarked grades.
- The location does not offer a general education diploma (if 9–12).
- The location does not receive school accreditation.

When programs are located in a school, they use the same code as the school. At times, programs may be located in ancillary facilities. For example, preschool programs may be in a previously closed elementary school, an automotive program in a bus compound, or an alternative education program in the wing of a district detention center.

Ancillary Facilities: There are many ancillary facilities that serve a variety of purposes in districts. Ancillary facilities may house instructional programs (e.g., day-care programs in hospitals, alternative education programs in a community center) or they may be non-instructional facilities (e.g., field houses, bus garages, etc.). Ancillary facilities may receive a code.

Facilities called schools are the physical settings where instruction occurs. The physical and administrative boundaries of a school need not be identical. For example, multiple schools may be located in one facility, such as when both elementary and secondary grade levels are located in the same facility. In this example, if administered separately, elementary and secondary levels would be considered separate schools (e.g., K–8, 9–12), each having its own unique School Code Master (SCM) number. When both elementary and secondary levels are administered as a single unit (e.g., K–12), collectively they represent one school and have one SCM number. It is possible that a physical facility itself may not be one building but a cluster of structures connected together with plumbing, sanitary, heating, ventilation, mechanical, electrical, communication and technology systems, or built-in equipment.

Field 6: Student's Last Name

Submission Cycle:	Fall, spring and end of year

Fatal errors occur when the field is blank, or the student's last name contains a non-Roman alphabetical or numeric (0-9) character. Note: Apostrophe, dash, period, comma, and space are accepted.

Message: Student's last name contains a character that is outside acceptable parameters. Please verify that the name is correctly spelled.

Warning (none)

Definition: Always record the student's name as it appears on a birth certificate or legal document presented at time of enrollment.

Common entry errors: Student's last name is spelled incorrectly or differently from the previous data submission.

Programming edits: If the birth date is blank, out of range, or not a valid date, a *fatal error* is reported.

Fatal errors occur when the field is left blank, contains an invalid date (e.g., 14/04/2001, 04/38/1957), or contains invalid date characters (e.g., letters instead of numbers).

Message: Date of birth is blank, out of range, or not a valid date.

Warning (none)

Definition: The date of birth is the date as it appears on a birth certificate or other legal document presented at time of enrollment.

Common entry errors: The entry of the current year instead of the birth year.

Field 12: City or Place of Birth

Dependencies with other fields:	In the future, this line will explain the dependencies between this field and others.

Programming edits: If this field is left blank, a *fatal error* will be reported.

Fatal errors occur when blank.

Message: City or place of birth is missing.

Warning (none)

Definition: Enter the city or place of birth just as it appears on the student's birth certificate. When the city of birth cannot be verified, then the county or township of birth is to be used; when the city, county, or township is not verifiable, then the country of birth is to be used. In many cases the city of birth will be the city where the hospital is located. If the student was adopted, the city or place of adoption is acceptable.

The sequence of documentation used to verify place of birth is as follows:

- Birth certificate (certified copy)
- Birth certificate (uncertified copy)
- Baptismal certificate (indicating place of birth)
- Court record
- Government record (passport, military, immigration)
- Doctor or hospital record with sworn statement
- Life insurance policy
- Family record

Common entry errors: City **or** place of birth is spelled incorrectly. When submitting the city, do not submit both city and place (i.e., state or country). For example, submit “Traverse City” (correct) not “Traverse City, Michigan” (incorrect); “Paris” (correct) not “Paris, France” (incorrect), “Muskegon” (correct) not “Muskegon, MI” (incorrect).

Field 18: FTE in General Education (Membership)

Submission Cycle:	Fall and spring
Field use:	In the future, this line will explain the specific reporting use.
State of Michigan office contact:	MDE/State Aid and School Finance/School Aid FTE, JoEllen Wonsey, 517-373-3352 or WonseyJ@michigan.gov

SIF tag:	<>
Code/format:	“0.00” to “1.00” (N.NN) with a default code
Dependencies with other fields:	In the future, this line will explain the dependencies between this field and others.

Programming edits: If the field is left blank, is less than “0.00”, or greater than “1.00”, a *fatal error* is reported. Error check against Field 9: Date of Birth to ensure that “0.00” FTE is being claimed when the student is less than 5 years of age on or before December 1, or 20 or more years of age on September 1; or if the student is in special education (Field 29: Program Eligibility/Participation Program, code “01000000”) and over 26 years of age as of September 1.

Fatal errors occur when this field is left blank, greater than “1.00”, or less than “0.00.” Fatal errors occur when more than “0.00” FTE is being claimed when the student is less than 5 years of age on or before December 1, more than 20 years of age on September 1, or if the student is in special education and more than 26 years of age as of September 1.

If an ISD uses a code of “06”, “09”, “11”, or “14” in Field 30: Student Residency and this field is greater than “0.00” FTE, a fatal error is reported.

Message: FTE in General Education is blank, less than “0.00”, or greater than “1.00”, or should not be claimed on this student. Note: Blanks are not accepted for this field. The default is “0.00.”

Warning (none)

Definition: Refer to Section 6 of the current State School Aid Act and the Michigan Department of Education’s Pupil Accounting Manual for Full Time Equivalency (FTE) instructions. Enter the FTE in this field. A student’s FTE may range from “0.00” to “1.00” (both tenths or hundredths are allowed as long as the district is consistent in the use of either one).

Common entry errors: The field is left blank.

Field 19: Grade or Setting

01	First Grade
02	Second Grade
03	Third Grade
04	Fourth Grade
05	Fifth Grade
06	Sixth Grade
07	Seventh Grade
08	Eighth Grade
09	Ninth Grade
10	Tenth Grade
11	Eleventh Grade
12	Twelfth Grade

Educational Setting:

13	Alternative Education
14	Special Education
20	Adult Education

Dependencies with other fields:	In the future, this line will explain the dependencies between this field and others.
---------------------------------	---

Programming edits: If the code is out of range, a *fatal error* is reported. If the field is blank, ensure that either Field 52: Early Childhood Enrollment or Field 54: Eligibility Code is filled. Possible edits at a district level might include comparing grade levels to a valid age. For example, a K-12 student could not be older than 26 (a fatal error); a typical first grader is between ages 5 and 7 (out of range is a warning).

Fatal errors occur when field is blank and both Field 52: Early Childhood Enrollment and Field 54: Eligibility Code are blank, out of range, or invalid numbers.

Fatal errors occur if the student's grade is code 14: Special Education or code 20: Adult Education, and Field 18: FTE in General Education (Membership) is greater than "0.00."

Fatal errors occur when this field is blank, and Field 18: FTE in General Education (Membership) is greater than “0.00.”

Fatal error occurs if Field 19: Grade or Setting equal “13” and Field 125: Program Eligibility/Participation II, first position, does not contain a “1.”

Message: Grade or Setting is either blank or contains an invalid number. Note: Field 19: Grade or Setting may be blank if Field 52: Early Childhood Enrollment or Field 54: Eligibility Code contains data.

Warning (none)

Definition: Identify the grade level or the educational setting in which the student is enrolled. As a general rule, students enrolled in K-12 general education are within two years of their chronological age minus five ($[(\text{chronological age} - 5) \pm 2] = \text{grade level}$). If the student is in a self-contained special educational setting, meaning that special education services are received in the context of an otherwise K-12, general educational setting (see definition below for special educational setting), use the age-appropriate grade placement. For students in a multi-age setting, use the appropriate grade level. For students beyond age appropriate grade level, use the correct educational setting. Do not use code 13 for Alternative Education unless the setting is also ungraded.

For Alternative Education, use Field 19: Grade or Setting to report the appropriate grade level for students currently participating in alternative education and report alternative education status in Field 125: Program Eligibility/Participation II. Use code 13 in Field 19: Grade or Setting only if the alternative educational setting in which the student is currently participating is ungraded (these are typically settings in which students do not take the MEAP exam).

Grade Level:

00 Kindergarten. Any one- or two-year program prior to first grade that meets the membership eligibility requirements of 5 years of age on or before December 1 and is a 549-hour program. If the setting is a developmental/retention kindergarten (DK) for which FTE is being claimed, in addition to being reported in Field 19: Grade or Setting, the student should also be reported in Field 125: Program Eligibility/Participation II, second position. [NOTE: Pre-Kindergarten Early Childhood programs do not include DK. Early Childhood programs are reported in Field 52: Early Childhood Enrollment].

01-12 Grade 1 through Grade 12.

Educational Setting:

13 Alternative Education. This is a public-school, alternative educational setting as defined by the Michigan Department of Education. In general, alternative education:

- Addresses needs of students that typically cannot be met in general education;
- Provides non-traditional curriculum, often consistent with a student's learning style;
- Functions as an adjunct to the general educational curriculum; and/or
- Falls outside of the categories of regular, special, career and technical, or vocational education.

If Field 19: Grade or Setting equal “13”, then Field 125: Program Eligibility/Participation II, first position, must also contain a “1.”

- 14 Special educational setting. A special program where the student could **not** be age-appropriately placed in a grade level. **Note:** If FTE for the student is being claimed in special education as well as general education, then this field must contain a grade level for the special education student (code “14” cannot be used).
- 20 Adult education. A full-time-equated participant enrolled and attending a Department-approved, adult basic-education program; an English-as-a-second-language program; a general-education, development test-preparation program; a job- or employment-related program; or a high school completion program; and who meets the eligibility requirements as defined in Section 107 of the State School Aid Act.

Field 20: Date of Enrollment

Submission Cycle:	Fall, spring and end of year
Field use:	In the future, this line will explain the specific reporting use.
State of Michigan office contact:	This line provides the general office name, phone and e-mail address
Field specification:	10-character
Record position/type:	179-188, integer with slashes
Database field name:	EnrollmentDate
SIF tag:	<EntryDate>
Code/format:	Month, day and year (MM/DD/CCYY)

All dates must appear in the following manner: DD must be a number between 01 and 31, and CCYY represents the year. For example, May 8, 1994 = 05/08/1994. Each MM must be one of the following:

01 January	07 July
02 February	08 August
03 March	09 September
04 April	10 October
05 May	11 November
06 June	12 December

Dependencies with other fields:	In the future, this line will explain the dependencies between this field and others.
---------------------------------	---

Programming edits: If the enrolled date is out of range, blank, or not a real date, a *fatal error* is reported. The enrolled date should precede or be on the Field 123: Date of Count if FTE is being claimed.

Fatal errors occur when the field is blank, contains an invalid date (e.g., 14/04/01 or 04/38/57), contains invalid date characters (e.g., letters instead of numbers), or Field 20: Date of Enrollment is earlier than Field 9: Date of Birth.

Fatal errors occur when this date field is greater than Field 123: Date of Count and the FTE in Fields 18: FTE in General Education (Membership), 40: FTE in Section 52 (Membership), or 41: FTE in Section 53 (Membership), is greater than "0.00."

Note: Date of Enrollment can be later than Field 38: Date of IEP/Temporary Placement, Field 39: Date of MET, or Field 55: Date of IFSP for Part C.

Message: Date of Enrollment is blank, out of range, or not a valid date.

Warning (none)

Definition: The month, day, year of the first day the student enrolled in that district. If a student leaves a district and returns, use the new re-enrollment date.

Common entry errors: Placing the current date in the field rather than ~~the date the student first enrolled~~
the most recent enrollment date.

Field 21: Attendance

Submission Cycle:	Fall, spring and end of year
Field use:	In the future, this line will explain the specific reporting use.
State of Michigan office contact:	DIT Client Service Center, 517-335-0505 or help-desk@mi.gov
Field specification:	Seven-character (with slash)
Record position/type:	189-195, integer with slash
Database field name:	AttendanceActual/AttendanceScheduled
SIF tag:	<>
Code/format:	Three numbers with a slash followed by three numbers (NNN/NNN). This field should may be blank when not required.
Dependencies with other fields:	In the future, this line will explain the dependencies between this field and others.

Programming edits: The three numbers before the slash cannot be greater than the three numbers after the slash. When an FTE greater than “0.00” is entered in any FTE field (Field 18: FTE in General Education (Membership), Field 40: FTE in Section 52 (Membership), and Field 41: FTE in Section 53 (Membership)), this field must have a value.

Fatal errors occur if the three numbers before the slash are greater than the three numbers after the slash or when Fields 18: FTE in General Education (Membership), 40: FTE in Section 52 (Membership), or 41: FTE in Section 53 (Membership) greater than “0.00” and Field 21: Attendance is blank (“blank” equal seven spaces or three spaces followed by a slash followed by three spaces) or when Fields 18: FTE in General Education (Membership), 40: FTE in Section 52 (Membership), or 41: FTE in Section 53 (Membership) are greater than “0.00” and attendance actual = “000.” In addition to adult education participants, this rule excludes Early Childhood, non-public, juvenile detention, Early Childhood Special Education, and Early On ®, or home-schooled.

Early Childhood (those students reported in Field 52: Early Childhood Enrollment) and adult education students will pass error check by virtue of the fact that no general education or special education FTE is being claimed. Non-public students are those students reported as “04” or “08” in Field 30: Student Residency (Membership). Juvenile detention students are those reported as “09” or “12” in Field 30: Student Residency (Membership). Early Childhood Special Education Program are those students reported as code “191” or “270” in Field 42: Program Service Code (Including Membership). Early On ® are those students reported in the third position of Field 29: Program Eligibility/Participation. Home-schooled are those students reported as “07” or “15” in Field 30: Student Residency (Membership).

Warning (none)

Definition: The three characters before the slash represent the number of days the student actually attended. The three characters after the slash represent the total possible days in attendance from the first day of school, the date of new enrollment, or the beginning of a program (e.g., summer school). (See Field 20 for more information on date of enrollment to the count day. For the EOY count day, use the last day of school, not including summer school.) **This field does not address instructional days or**

clock hours. For services that are not school-based (e.g., services provided in the home), report how many days out of the days available that the student received services.

Attendance data is not required for the following: Early Childhood, non-public, juvenile detention, adult education, Early Childhood Developmental Delay (formerly PPI), Early Childhood Special Education Program, and Early On ®.

For example, the end date for the fall SRSD data submission would be the official fall count date in September. For students who enrolled on the first day of school, the possible attendance days would then equal the number of days that students were expected/required to attend between the first day of school and the count date. Using this example, if a student exits the school between count dates, then the possible attendance days would then equal the number of days that students were expected/required to attend between the first day of school and the date that this student exited (Field 24: Date Exited). When a student enrolls after the first day of school, the days preceding the enrollment date are not counted in possible attendance. If a student exits and re-enrolls between count dates, then the total number of days enrolled would be the number of possible days.

Students in the same grades, but different buildings, may have different possible days of attendance. If a student transfers to a different school within the district during the school year, or the student is enrolled in two buildings within the same district, then attendance days should be combined across the different schools for reporting. (This means that attendance in either building would be considered as a day in attendance.) If a student is enrolled in two different districts, then the possible days for each district would equal the expected/required days for each district only.

Attendance for any part of the school day may be counted as a day in attendance. Participation in half-day kindergarten, special education for pre-primary-aged students, or any other pupil program is to be reported as a day in attendance. In-school suspensions are considered days in attendance. Expulsions and out-of-school suspensions are considered absences.

This field ~~should~~ may be blank when not required.

Field 22: Racial/Ethnic Code

Submission Cycle:	Fall, spring and end of year
Field use:	In the future, this line will explain the specific reporting use.
State of Michigan office contact:	DIT Client Service Center, 517-335-0505 or help-desk@mi.gov
Field specification:	Six-character, blanks not accepted
Record position/type:	196-201, integer
Database field name:	RacialEthnicCode
SIF tag:	<Ethnicity>
Code/format:	<p>This is a unique six-position field using any combination of “0” through “6” in the proper position (NNNNNN). Because this is a multiple-occurrence field, the indicator of the code is located by position in the format. The primary racial/ethnic choice is represented with a “1” and the second choice is a “2”, etc. For example, a person whose primary racial/ethnic choice is Asian American would receive a code of “010000.” If the same person is also White, they would receive the code of “010020.” In this example, a person who is primarily of the Hispanic ethnic group and is also of the Black and Asian races, could be coded “032001.” If a person is of equal races such as an American Indian and Hispanic, they would be reported as “100001.” Using this procedure, multiple racial/ethnic classifications are possible when self-selection occurs.</p> <p>American Indian or Alaska Native (first position) Asian American (second position) Black or African American (third position) Native Hawaiian or Other Pacific Islander (fourth position) White (fifth position) Hispanic or Latino (sixth position)</p>
Dependencies with other fields:	In the future, this line will explain the dependencies between this field and others.

Programming edits: Error check to ensure that there is a six-digit code which is not out of range, and at least one of the six digits must be the number “1.”

Fatal errors occur when field is blank, or one or more numbers of the six-digit code is larger than 6.

Message: One of the six-digit codes is either blank or invalid.

Warning (none)

Definition: First identify a racial group and then the ethnicity of the student. If the student is self-selecting, a multiple of the following codes with **primary and/or secondary choices must be reported.**

100000	<i>American Indian or Alaska Native.</i> A student having origins in any of the original peoples of North America and South America (including Central America), and who maintains tribal affiliation or community attachment.
010000	<i>Asian American.</i> A student having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian sub-continent including for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
001000	<i>Black or African American.</i> A student having origins in any of the black racial groups of Africa.
000100	<i>Native Hawaiian or Other Pacific Islander.</i> A student having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.

Dependencies with other fields:	In the future, this line will explain the dependencies between this field and others.

Programming edits: If the exit code is between "01"-"26" ("20"-"26" are special education codes), a valid date must be submitted in Field 24: Date Exited. If the status is code "19", the "Date Exited" field may be left blank. A fatal error occurs if this field contains "10" (expelled) and Field 113: Date Expelled, is blank.

If the field is out of range, a *fatal error* is reported.

Fatal errors occur when this field is blank or out of range. A fatal error occurs if this field contains a single digit either preceded or followed by a blank.

Warning (none)

Definition: Use only one code for the reason the student is no longer in the school district. For special education students, codes “20”-“21” and “25”-“26” in Field 45: Exit/Completion Reason may also be used. If the student has transferred to another school within the same school district, the previous school should report an exit code of “19” and leave Field 24: Date Exited blank. This student should not appear in the previous school’s subsequent submissions. If the student has been expelled but continues to receive services, report an exit code of “19” and complete Fields 112-120. Use an exit code of “10” (in addition to completing fields 112-120) only for students who are expelled and no longer receive services from the school district.

- 01 Graduated from general education with a diploma. Used for a student who earned a high school diploma. Includes early graduates who earn a high school diploma. Also include the student with an IEP who met the same graduation requirements as the nondisabled student. Exclude any student who graduated by meeting only IEP requirements.
- 02 Graduated from general education with a diploma and applied to a degree-granting college or university. Used for a student who graduated with a high school diploma and to the best of the district’s knowledge, enrolled in a two- or four-year degree-granting college or university.
- 03 Graduated from an alternative program. Used for graduates receiving a diploma from an alternative program in a regular high school or a separate building.
- 04 Graduated from general education and applied to a non-degree-granting institution. Used for a student who graduated, and to the best of the district’s knowledge, enrolled in a non-degree-granting institution (e.g., trade, technical, vocational, or business school).
- 05 Completed general education with an equivalency certificate. Used for a student known to have passed the GED test and to be under 20 years of age.
- 06 Completed general education with other certificate. Used for a student who completed school with some other type of certificate, such as a certificate of attendance/completion, or a district competency test.
- 07 Dropped out of school. Used when a student, upon reaching age 16, stopped attending school, and no reason is given. For special education, the student left school before the age of 26 without completing his/her educational program.

When the MEIS reports dropouts to the National Center for Education Statistics on the Common Core of Data (CCD), the following criteria are used:

1. was enrolled in school at some time during the previous school year and was not enrolled on the count date; or
 2. was not enrolled the previous school year although expected to be in membership (i.e., was not reported as a dropout); and
 3. has not graduated from high school or completed a state- or district-approved educational program; and
 4. does not meet any of the following exclusionary conditions:
 - transfer to another public school district, private school, or state- or district-approved education program (code “08”, “09”, “14” or “15”);
 - temporary school-recognized absence because of suspension or illness; or
 - death (code “12”).
- 08 Enrolled in another district. Used when a student moved to another school district in Michigan and is known to be continuing in education. Movement to another district includes moving to state institutions.

- 09 Moved out of state. Used when a student has moved out of state and is no longer attending a public or private school in Michigan. Used when students and their parents/guardians physically move outside the original district of residence to another state or country. This code should also be used when a foreign exchange student left midyear to return to his/her home country.
- 10 Permanently expelled from school district. Used when either a general education or a special education student has been permanently expelled from school by official board action. This does not include a special education student on long-term suspension or a student who is placed in an alternate educational setting. A student with this code requires further information located in the expulsion section (fields 112-120) at the end of this SRSD.
- Students who are expelled for less than the remainder of the current school and continue to receive services should receive a code "19" (expected to continue) with a code in Field 120 of either "3" or "7."
- 11 Student enlisted into the military or district/national Job Corps. Used when the student left school to enlist in a branch of the U.S. Military.
- 12 Deceased. Used when a student has passed away.
- 13 Incarcerated. Used when a student is placed under jurisdiction of juvenile or criminal justice authority.
- 14 Enrolled in home school. Used when a student receives instruction offered in a home ~~and regulated by state law~~, for reasons other than health.
- 15 Enrolled in non-public school. Used when a student attends a non-public school, such as a parochial school.
- 16 Unknown. Used when the current status of the student is unknown. For reporting purposes, this student is considered a dropout, unless s/he can be located in another district.
- 17 Recovery program. Used when the student was placed in a recovery program, rehabilitative program, or under psychiatric care. If the student is still receiving services from the district (either homebound or hospitalized), the student should be reported as code '19' (continuing).
- 18 Adult education. Participant is no longer enrolled in an Adult Education Program.
- 19 Expected to continue. Used when the student is expected to continue normal matriculation through the educational system in the same district.
- 20-21 Special Education students only. See Field 45: Exit/Completion Reason for definitions of these and codes. Used when special education student leaves the school district.

Database field name:	ProgramParticipationCode
SIF tag:	<>
Code/format:	<p>This is a unique nine-position field (NNNNNNNNN) with a default code of "0." According to student status, report either a "0" or "1" in the proper position. Because this is a multiple-occurrence field, the indicator of the code is located by position in the format. For example, a special education student would receive a code of "01000000." If the same student were a migrant student in CTE, the code would be "010100100." This allows for multiple occurrences.</p> <p> Title I (first position) Special Education (second position) Early-On[®] (third position) Career and Technical Vocation (fourth position) Advanced and Accelerated (fifth position) Limited English Proficient (sixth position) Migrant Education (seventh position) Adult Education (eighth position) Section 504 (ninth position) </p>

Programming edits: Error check to ensure a valid code is in this field and is not out of range.

Fatal errors occur when this field is blank, or any of the nine-digit codes are out of range.

Message: The nine-digit code contains at least one blank or contains an invalid number.

Definition: This field is used to identify what type of categorical program/service the student is eligible for and enrolled in.

010000000	Special Education. This student is eligible for special education programs or services and has an IEP.
001000000	Early-On [®] . This infant or toddler is eligible for special education programs or services and has an IFSP/IEP.

Relationship between Field 29: Program Eligibility/Participation and Categorical Fields in the SRSD Error Check Program

Field 29: Program Eligibility/Participation was originally introduced as a convenient means of identifying those students participating in various categorical programs. For each categorical program, Field 29: Program Eligibility/Participation is complemented by various fields that report more detailed categorical information. The dependency between Field 29: Program Eligibility/Participation and these other more specific fields varies and is elaborated below.

FORWARD DEPENDENCY: This refers to a dependency in which Field 29: Program Eligibility/Participation “looks forward” to specific categorical fields. For example, if the second position of Field 29: Program Eligibility/Participation is triggered (i.e., contains a “1”), the Error Check Program (ECP) “looks forward” to Field 36: Primary Disability and ensures that there is a valid value in that field. If there is not, ECP reports a fatal error.

BACKWARD DEPENDENCY: This refers to a dependency in which specific categorical fields “look backward” to Field 29: Program Eligibility/Participation. For example, if Field 54 :Eligibility Code contains a valid value, ECP will “look backward” to Field 29: Program Eligibility/Participation to ensure that position three is triggered. If position three instead contains a “0,” ECP reports a fatal error.

Definition: The count is taken at the district in which the student is enrolled, not necessarily the school where the meal is received. The student need not actually receive a meal on the day this count is taken. Free milk or free/reduced-price meal eligibility is used to calculate awards for federal and state grants by the Michigan Department of Education. See: www.fns.usda.gov/cnd/lunch/governance/policy/limited.disclosure.html for disclosure information.

- 1 The student has a free meal/milk application on file October 31 of the current school year and the application was verified and adjusted (if necessary) by December 31 of the current school year. Free meal/milk eligibility is used to generate funds for Section 31a and Section 32d State Aid.
- 2 The student has a reduced-price meal application on file during the month of October of the current school year and the application was verified and adjusted (if necessary) by December 31 of the current school year. This student does not generate funds for Section 31a or Section 32d but may be eligible to receive other services under these programs.

- has applied and is approved as eligible for free or reduced-price meals or free milk;
- is eligible under federal guidelines.

Programming edits: Error check to ensure a valid code is not out of range. If the student is one of a multiple birth, be sure each student from this multiple birth has a different (unique) multiple-birth order number.

Fatal error will occur when field is blank or contains an invalid number.

Warning (none)

Definition: This field is used to indicate that the student is part of a multiple birth where siblings share all unique identifying characteristics, including first and last name. Each student from such a multiple birth is to have a uniquely different number. We recommend using the birth order of the student. This field will be used by the state to “break ties” if two or more students are identified as being duplicates (i.e., they share **all** unique identifying information), yet it is known by the district that these students are not duplicates but instead part of a multiple birth.

Codes “02, 03, and 04” will be replaced by category “05” (Cognitive Impairment). ---------------------------------	---

Programming edits: Ensure that the student is in the second position in Field 29: Program Eligibility/Participation. When the primary disability code is out of range, a fatal error is reported. Note: Code “11” (Early Childhood Developmental Delay) is in error if the student’s age as of September 1 of the current school year is equal to or greater than 8 years of age. Participation in an Early Childhood Special Education Program (Field 42: Program Service Code (Including Membership)) does not mean a student has an Early Childhood Developmental Delay label. It is also recommended that districts examine all students from the age of 0 through 2 years of age against code “06” (Emotionally Impaired) and code “13” (Learning Disabled). Such primary disability codes for age 0 through 2 are highly suspect. If this field contains a value, then either Field 42: Program Service Code (Including Membership) or Field 43: Support Services must contain a value.

Fatal errors occur when the field is blank and a number “1” is in the second position of Field 29: Program Eligibility/Participation, the value is invalid, or the value is out of range. A fatal error occurs if this field contains a single digit either preceded or followed by a blank.

Message: Either Field 29: Program Eligibility/Participation does not indicate that the student is a special education participant, or Field 36: Primary Disability contains an invalid or out of range code.

Warning: A warning is issued when the student’s age is too high for Early Childhood Developmental Delay or too low for EI or LD students.

Warning message: Student’s age is too high or too low for this student.

Definition: Primary disability areas are defined in the Michigan Administrative Rules for Special Education. In order for students to be counted for special education, they must have a disability code. Do not confuse primary disability with classroom placement.

- 02 Cognitive Impairment is defined in Michigan Special Education Rules under R340.1705. Districts may still report students as “Mentally Impaired” under codes “03, 04, and 05.”
- 16 Traumatic Brain Injury is now defined in Michigan Special Education Rules under R340.1716. Districts may still report these students as “POHI” under code “09.”
- 19 Physical Impairment is defined in Michigan Special Education Rules under R340.1709. Districts may still report these students as “POHI” under code “09.”
- 20 Other Health Impairment is now defined in Michigan Special Education Rules under R340.1790a. Districts may still report these students as “POHI” under code “09.”

Definition: These are used to describe additional characteristics relating to the student's primary disability.

- 21 Deaf-blindness: Deaf-blindness means concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational needs that they cannot be accommodated in special education programs solely for children with deafness or children with blindness.
- 22 Legally blind: Legal blindness means visual acuity of 20/200 or less in the better eye with best correction, a limitation of the field of vision not greater than 20 degrees, or a visual acuity of 20/100 in the better eye with a deteriorating condition as a primary disability.
- 24 Deafness: Deafness means a hearing impairment that is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification, that adversely affects a child's educational performance.

Fatal errors occur when the field contains a valid number and Field 36: Primary Disability is blank, contains an invalid date or an out of range value, or this field is blank and Field 36: Primary Disability contains a valid value.

Message: An invalid value or out of range number has been entered.

Warning: A warning is issued when the Date of IEP is after Field 24: Date Exited.

Warning message: An IEP is usually conducted before a student exits the district.

Definition: The date of the student's most recent Individual Education Program (IEP) should be placed in this field. An IEP is required by the U.S. Department of Education in order to qualify students for federal funding.

Districts may count students who are temporarily placed under rule 340.1722e. The date of the temporary placement is reported in the IEP date field. An IEP is required by Michigan Special Education rule R340.1721e to determine a student's eligibility for special education. An IEP is also required in counting students for the Individuals with Disabilities Education Act (IDEA).

Common entry errors: Check that the field is filled with the IEP date or the date of temporary placement, not the date of entry.

Programming edits: Ensure that a date occurs when a Field 36: Primary Disability code exists. When the prior evaluation or re-evaluation date is not a valid date, is out of range, or the date is blank, a *fatal error* is reported.

Fatal errors occur when the field contains a valid number and Field 36: Primary Disability is blank, contains an invalid date or an out of range value, or this field is blank and Field 36: Primary Disability contains a valid value.

Message: An invalid value or out of range number has been entered.

Warning (none)

Definition: The date of the student's most recent Individual Education Program Team meeting in which the student's eligibility or redetermination of eligibility was established on the IEP.

The date should be the date of the IEP in which the initial/redetermination of eligibility was established and not the date established by the Multidisciplinary Evaluation Team. MET evaluations are no longer required in many cases to establish continued eligibility.

Field 40: FTE in Section 52 (Membership)

Submission Cycle:	Fall and spring
Field use:	In the future, this line will explain the specific reporting use.
State of Michigan office contact:	MDE/Special Education, Dianne Easterling, 517-241-4517 or EasterlingD@michigan.gov
Field specification:	Four-character, with decimal point
Record position/type:	377-380, decimal
Database field name:	FTEInSection52
SIF tag:	<>
Code/format:	“0.00” to “1.00” (N.NN) with a default code
Dependencies with other fields:	In the future, this line will explain the dependencies between this field and others.

Programming edits: Blanks are accepted if the student is not in special education. If the student is in special education and FTE is less than “0.00”, or greater than “1.00”, a *fatal error* is reported. This field, when added to FTE in Field 18: FTE in General Education (Membership), cannot exceed “1.00.” Check if the student is in a program in Field 42: Program Service Code (Including Membership) (between code “110” to “194” or “270”). If they do not have a correct program code, no membership can be claimed. If FTE is used in this field, it cannot be used in Field 41: FTE in Section 53 (Membership).

Fatal errors occur when the field contains a valid value and Field 36: Primary Disability is blank, the value is greater than “1.00” or less than “0.00”; or both Fields 40 and 41 contain valid values greater than zero.

Message: Check for the following: (1) Field 40: FTE in Section 52 (Membership) contains valid data, but Field 36: Primary Disability is blank. (2) FTE in Field 40: FTE in Section 52 (Membership) cannot be greater than “1.00” or less than “0.00.” (3) Field 42: Program Service Code (Including Membership) is blank. (4) A value greater than zero has also been reported in Field 41: FTE in Section 53 (Membership).

Warning message: Verify that this student does not generate Section 53 membership FTE.

Definition: This categorical area represents the student’s source of State Aid reimbursement. All students who do not qualify as a Section 53 student should be listed as Section 52. Enter the special education Full-Time Equivalency (FTE) in this field. A student’s FTE may range from “0.00” to “1.00.” (Both tenths or hundredths are allowed as long as the district is consistent in the use of either one.) Special education students are reported whether or not they generate a special education FTE.

Refer to Section 6 of the current State School Aid Act and the Department’s Pupil Accounting Manual for FTE instructions. For students in a classroom program only, report the FTE in the Special Education classroom.

(2) FTE in Field 41: FTE in Section 53 (Membership) cannot be greater than "1.00" or less than "0.00." (3) Field 42: Program Service Code (Including Membership) is blank. (4) A value greater than zero has also been reported in Field 40: FTE in Section 52 (Membership).

Definition: This categorical area represents Section 53 Membership: (a) Pupils assigned to a district or intermediate district through the community placement program of the court or state agency, if the pupil was a resident of another intermediate district at the time the pupil came under the jurisdiction of the court or a state agency. (b) Pupils who are residents of institutions operated by the Department of Community Health. (c) Pupils who are former residents of Department of Community Health institutions for the developmentally disabled and are placed in community settings other than the pupil's home. (d)

Pupils enrolled in a Department-approved, on-grounds educational program longer than 180 days, but not longer than 233 days, at a residential child-care institution, if the child-care institution offered in 1991-92 is an on-grounds educational program longer than 180 days but not longer than 233 days. (e) Pupils placed in a district by a parent for the purpose of seeking a suitable home, if the parent does not reside in the same intermediate district as the district in which the pupil is placed. Programming edits: A student must have at least one program or support service code (Field 43: Support Services) if a Field 36: Primary Disability code exists. If program and support service fields are blank, this is a *fatal error*. If membership is claimed, the old code “195” is not allowable. (It was discontinued.)

Fatal errors occur when Field 36: Primary Disability contains a valid value, and both Field 42: Program Service Code (Including Membership) and Field 43: Support Services are blank. This field must have at least one program code if claiming special education FTE.

Message: Both codes in Field 42: Program Service Code (Including Membership) and Field 43: Support Services are blank. A special education student must receive at least one of the listed programs or services.

Warning (none)

Definition: *The primary program must be listed first (in the left-most position). This first field becomes the program assignment for State Aid membership.* If a student receives more than three services, specify the three that occur most frequently. It is important to put the primary program service in the initial program services field first and then consecutively fill in the following program service fields. This field reports services used in calculating a student's special education FTE and must have a value for a district to receive Section 52 funds.

Do not confuse type of disability with the classroom program. For example, a student does **not** have to be diagnosed as PPI to participate in a PPI program.

Definition: Support services for special education students are numbered “200” to “480.” *The primary service must be listed first.* Be sure to use these codes for special education students. To be counted as a special education service, a service must be part of the evaluation or re-evaluation process or included as services to be delivered as part of the student’s IEP. It is important to put the primary service first and then consecutively fill in the following support service fields. If a student receives more than five of the above services, specify the five that occur most frequently.

- 200-260 Teacher Consultant Services. See rule R300.1749.
- 280 Homebound/Hospitalized

- 291 Adaptive Physical Education. Instruction in physical education to special education pupils whose disabilities preclude integration into regular physical education classes.
- 310 School Social Work Services. See rules R340.1011–R340.1018. To be counted as a special service, the social work service must be listed as a service on the student’s IEP.
- 320 School Psychological Services. See rules R340.1151–R340.1158. To be counted as a special education service, school psychological services must be listed as a service on the student’s IEP.
- 360 Occupational Therapy. Occupational therapy deals with improving, developing, or restoring functions impaired or lost through illness, injury, or deprivation; improving ability to perform tasks for independent functioning when functions are impaired or lost; and preventing, through early intervention, initial or further impairment or loss of function.

- 383 Music Therapy. Music therapy activities are provided to special education students by a certified music therapist.

- 390 Art Therapy. Art therapy activities are provided to special education students by a certified art therapist.
- 400 Audiological Services. Audiological services are services provided by an audiologist to identify students with hearing loss and provide rehabilitation and counseling concerning hearing loss.
- 406 Interpreter for the Deaf. Services provided by a qualified interpreter who assists the hearing impaired student and school personnel with communication.
- 410 Recreation Services. Recreation services are the assessment of a handicapped student's leisure functioning, providing therapeutic recreation services, participation in a recreation program in a school designed specifically for handicapped students, or providing leisure education.
- 440 Special Transportation. Special transportation must be provided in an approved school vehicle in a regular seat, wheelchair, or an approved baby seat. This specifically excludes students who need ambulance service, a medical attendant, or other care outside the responsibility of the schools.
- 450 School Health Services. School health services must be provided by a qualified school nurse or other qualified person. To be counted as a special education service, the school nurse must be working solely with special education students or the service should be indicated in the student's IEP.
- 460 Rehabilitation Counseling Services. The student receives counseling services provided by a qualified rehabilitation counseling professional. Such services are intended to explore the effect of the student's disability on employment and other post-school activities which include vocational programs funded by Michigan Rehabilitation Services or the Michigan Commission for the Blind.
- 470 Orientation and Mobility Services. Orientation and mobility instruction for the visually impaired must be provided by an approved orientation and mobility instructor.

- 493 Special Education Vocational Education. Special training for handicapped students whose disabilities preclude entry into another vocational training program or who may need a prerequisite sequence of skills prior to entry into a vocational program.

Common entry errors: Program service codes placed in this field. The data should not be lower than 200 nor greater than 480.

Definition: Note changes in reporting students enrolled in kindergarten. This information is required by the U.S. Department of Education as part of the IDEA count and must be specified in order to count a student on the last Friday in October. Identify the place where the majority (more than 50 percent) of a student's education assignment takes place. This includes both a student's general education and special education program.

- 01 General Educational setting. Students receiving special education classroom programs or ancillary services at a public school district facility in which both non-handicapped and handicapped students are educated.
 - a. *Kindergarten:* Use General Educational setting for special education students participating in kindergarten in a private or public general education school building where the kindergarten classroom enrolls both handicapped and non-handicapped students. The kindergarten participating must also be indicated in Field 19: Grade or Setting.
- 02 Special Education School Building. Students who receive special education programs and services at least 50 percent of the time at a public school building in which only handicapped students are educated. This also includes programs operated by the public schools for handicapped students on the grounds of a nursing home, a community mental health facility, or a detention facility under contract to the Family Independence Agency (formerly the Department of Social Services). This would also include students receiving special education services who attend at least 50 percent or more of the time at a private or parochial school only for handicapped students.
 - a. *Kindergarten:* Use General Educational setting for special education students participating in kindergarten in a private or public general education school building where the kindergarten classroom enrolls both handicapped and non-handicapped students. The kindergarten participating must also be indicated in Field 19: Grade or Setting.
- 03 Public Residential Facility. A public facility where handicapped students are educated and live during the school year. This includes programs operated by the public schools for handicapped students on the grounds of public residential programs for Department of Community Health (formerly the Department of Mental Health) facilities, Family Independence Agency facilities or the Michigan Schools for the Deaf and Blind.
- 04 Private Residential Facility. A private facility where handicapped students are educated and live during the school year.
- 05 Correction, Juvenile Detention or other Facilities. A public or private facility for preadjudicated youth and adults. This includes Department of Corrections facilities or private facilities under contract to the Department of Corrections. It also includes settings for adjudicated youth in locations other than juvenile detention centers.

- 06 Homebound. Students who receive services at home because of illness. For preschool students (ages 3-5), the home includes preschoolers with disabilities who receive their special education and related services in the principal residence of the child's family or caregivers.
- 07 Hospitalized. A facility which temporarily houses special education students because of illness. This includes programs operated by the public schools for handicapped students on the grounds of public or private medical and/or psychiatric hospitals or treatment centers.
- 08 Alternative Training/Work Site. Students who receive vocational training in a sheltered workshop, an individual setting, a work-study site, or a supported employment.
- 09 Alternative Education Program. Students who receive special education in an alternative education program such as a community college or a specialized educational setting.

Typical Codes for Students Age 5 and Under as well as those Students in Early Childhood Settings (ages 7 and under as of September 1):

- 20 Children placed in a Head Start program for children ages 3-4.
- 21 Early Childhood Setting. Students who received all of their special education and related services in early childhood educational settings designed primarily for children without disabilities. No education or related services are provided in separate special educational settings. This may include, but is not limited to:
 - public or private preschools;
 - child-care facilities;
 - preschool classes offered to an eligible pre-kindergarten population by the public school system;
 - home/early childhood combinations; and
 - other combinations of early childhood settings.
- 22 Early Childhood Special Educational setting. Students who received all of their special education and related services in educational programs designed primarily for children with disabilities, housed in regular school buildings or other community-based settings. No education or related services are provided in early childhood settings. This may include, but is not limited to:
 - special education classrooms in regular school buildings;
 - special education classrooms in child-care facilities, hospital facilities on an outpatient basis, or other community-based settings; and
 - special education classrooms in trailers or portables outside regular school buildings.
- 23 Home. Students who received all of their special education and related services in the principal residences of the children's families or caregivers.
- 24 Part-Time Early Childhood/Part-Time Early Childhood Special Educational setting. Students who received services in multiple settings, such that: (1) general and/or special education and related services are provided at home or in educational programs designed primarily for children without disabilities, and (2) special education and related services are provided in programs designed primarily for children with disabilities. This may include, but is not limited to:

- home/early childhood special education combinations;
 - child care, nursery school facilities, hospital facilities on an outpatient basis, or other community-based settings with special education provided outside of the regular class;
 - regular kindergarten classes with special education provided outside of the regular class;
 - separate school/early childhood combinations; and
 - residential facility/early childhood combinations.
- 25 Residential Facility. Students who received all of their special education and related services in publicly or privately operated residential schools or residential medical facilities on an inpatient basis.
- 26 Separate School. Students who received all of their special education and related services in educational programs in public or private day schools specifically for children with disabilities.
- 27 Itinerant Service Outside the Home. Students who received all of their special education and related services at a school, hospital facility on an outpatient basis, or other location for a short period of time (i.e., no more than three hours a week). This does not include children receiving services at home. These services may be provided individually or to a small group of children. This may include, but is not limited to, speech instruction up to three hours a week in a school, hospital, or other community-based setting.
- 28 Reverse Mainstream Setting. Students who received all of their special education and related services in educational programs designed primarily for children with disabilities, but that include 50 percent or more children without disabilities.
- 29 Michigan School Readiness Program. Students in the state-funded preschool program for 4-year-old children at risk of school failure.

Do not confuse a program designed for children under the age of 5 with a student's age. For example, when a 5-year-old turns 6 after entering the program, a 6-year-old may be in the program designed for 5-year-old children.

Definition: Use this code in addition to the "Exit Status" codes "1-17" in Field 23: District Exit Status for the reason the student is no longer in the educational setting since the last submission.

01-17 See Field 23: District Exit Status for these codes. Field 23: District Exit Status codes "1-17" can be used in this field when the special education student leaves the district.

- 20 Received certificate of completion or finished IEP requirements. Received a certificate of completion in lieu of a standard high school diploma. Student exited his/her educational program, that is, high school-equivalent program, by receiving a special education high school diploma, a modified high school diploma, a special education certificate of completion of high school or educational program or some similar document.
- 21 Reached maximum age. Student reached the maximum age of 26 for receipt of programs or services and is no longer eligible to attend school.
- 22 Declassified. The student's final IEP determined that the student is no longer eligible for special education services, that is, no longer meets the criteria under Michigan rules for handicapping conditions. The student continues to participate in the local education agency's general education or vocational education programming and no longer requires special education services.
- 25 Enrolled in another district, known to continue in special education. Used when a student moved to another district in Michigan and is known to be continuing in special education. Movement to another district includes moving to state institutions.
- 26 Enrolled in another district, known not to continue in special education. Used when a student moved to another school district in Michigan and is known to be not continuing in special education. Movement to another district includes moving to state institutions, but not to special education programs.

Programming edits: If a student is in a special education program, and if codes “01-17” were used in Field 23: District Exit Status, or if codes “20-26” were used in Field 45: Exit/Completion Reason, then a valid date must occur.

Fatal errors occur when this field is blank and codes “01-17” were used in Field 23: District Exit Status, or field is blank and codes “20-26” were used in Field 45: Exit/Completion Reason.

Message: Field 23: District Exit Status used codes “01-17”, or Field 45: Exit/Completion Reason used codes “20-26,” and this field is blank.

When reporting Fields 45 and Field 46: Date Exited or Completed, no other special education fields should be reported. Position two of Field 29: Program Eligibility/Participation should be set to “0.”

Warning (none)

Definition: The month, day, and year of the first day after the date a student last attended school, graduated, or became known officially to have left the educational setting. Place a date in this field when the student left school or terminated his/her special education program or service.

Fields 47a - 47d and Field 48 Instructions on Special Education Disciplinary Action fields

The counts collected in these five fields, Fields 47a – 47d and Field 48, will be reported to the Office of Special Education Programs (OESP) using Table 5 of the reporting documents required under Section 618 of the Individuals with Disabilities Education Act (IDEA). The counts and appropriate rankings will also be added to the Special Education Data Portraits.

The five fields, 47a: Special Education Disciplinary Action: Number of Removals (Year-To-Date) by Hearing Officer, 47b: Special Education Disciplinary Action: Number of Unilateral Removals (Year-To-Date) Following a Weapons Offense, 47c: Special Education Disciplinary Action: Number of Unilateral Removals (Year-To-Date) Following a Drug Offense, 47d: Special Education Disciplinary Action: Number of Individual Out-Of-School Suspensions (Year-To-Date) Greater than 10 Days, and Field 48: Special Education Disciplinary Action: Multiple Short-Term Out-Of-School Suspensions Accumulating to More than 10 Days (Year-To-Date) correspond to the five Method of Removal types in the former SRSD Field 49. For the Federal Table, only an *incident* count is required (not a count of *days*).

A zero or blank indicates that no removal or suspension incidents of that type occurred for the student. For Fields 47a through 47d, a “9” will be interpreted as “9 or more occurrences.” The dependencies with other special education fields will only be invoked if a valid non-zero integer is recorded.

A single offense can only be counted once in the five fields 47a - 47d, or Field 48.

For offenses in Fields 47a, b, c, or d (the hearing officer, weapons, drugs, or long-term suspension categories), use the beginning date of the actual removal or suspension to determine the SRSD collection period for which the incident should be reported. For example, suppose a weapons offense incident occurred prior to the fall count date (fourth Wednesday in September) but that the 25-day removal for this incident actually began *after* the fall count date. For the fall count, this student would be reported with a zero (0) in field 47b. For the spring and end-of-year counts, assuming no further suspensions, the student would be reported with a one (1) in field 47b.

For Field 48, report a “1” for the SRSD collection period in which the eleventh day of accumulated suspensions actually falls. For example, suppose a student has a five-day suspension in September, then a three-day suspension in December, for a total of eight days. An additional five-day suspension then begins on the day prior to the spring SRSD count date. However, in this scenario, the eleventh day actually falls one day *after* the spring count date, in the end-of-year count. So, Field 48 is reported as “0” for the spring submission while the end-of-year submission reports Field 48 as “1.”

If a student exits special education prior to the end of the school year, then include only those incidents that occur while the student is in special education. If the student moves to another district or begins attending another district while on suspension from your district, count the incident in the appropriate category.

If a removal or suspension occurs after the end of the school year, then report the incident in the subsequent fall submission.

Year-to-date is defined as starting on the first official day of school and lasting to the appropriate current count date. *School year* is defined as starting on the first official day of school and lasting to the last official day of school. For the end-of-year submission, *school year* is the same as *year-to-date*.

Example

Fall Count date: September 24th

Spring Count date: February 11th

The student receives three disciplinary removals for the school year as follows and all three fall within the same category (Field 47a: Special Education Disciplinary Action: Number of Removals (Year-To-Date) by Hearing Officer).

	Beginning Date of Removal	Number of Days Removed
<i>Removal #1</i>	September 10	12
<i>Removal #2</i>	October 12	15
<i>Removal #3</i>	February 5	11

Since the *beginning date* of removal #1 fell prior to the fall count date (September 24th), Field 47a: Special Education Disciplinary Action: Number of Removals (Year-To-Date) by Hearing Officer would be reported as “1” for the fall submission. For the spring submission, since the beginning dates for the subsequent two removals both fell prior to the spring count date (February 11th), Field 47a: Special Education Disciplinary Action: Number of Removals (Year-To-Date) by Hearing Officer would report the cumulative number of removals year-to-date, which is now “3.” Assuming no further removals, the reported count for Field 47a: Special Education Disciplinary Action: Number of Removals (Year-To-Date) by Hearing Officer for the end-of-year submission would simply be a carry-over of the spring count, or “3.”

Relationship to Expulsion Fields 112-120

If completing one of the special education disciplinary infraction fields (Fields 47a – e), there is no longer a requirement to also complete Fields 112 through 120 *unless* the student has been officially expelled from the school district (that is, disciplinary procedures relevant to students without disabilities have been deemed appropriate and applied in this case).

Removal by a Hearing Officer

These are instances in which an impartial hearing officer orders the removal of children with disabilities from their current educational placements to appropriate alternative educational settings for not more than 45 days, based on the hearing officer's determination that the public agency has demonstrated by substantial evidence that maintaining the child's current placement is substantially likely to result in injury to the child or others.

These are instances in which school personnel (not the IEP team) order the removal of children with disabilities from their current educational placements to appropriate interim alternative educational settings for not more than 45 days, where the incidents involve weapons. The IEP team is responsible for determining the interim alternative educational placement. Unilateral removals do NOT include decisions by the IEP team to change a student's placement.

Field 48: Special Education Disciplinary Action: Multiple Short-Term Out-Of-School Suspensions Accumulating to More than 10 Days (Year-To-Date)

Definition: Record a “1” if the student was subject to multiple (10 days or less) out-of-school suspensions that together accumulate to a total of more than 10 days.

Multiple Short-term out-of-school suspensions:

These are cases in which the student was subject to multiple short-term out-of-school suspensions summing to more than 10 days. Each suspension must be less than or equal to 10 days, otherwise it would be reported in Field 47d: Special Education Disciplinary Action: Number of Individual Out-Of-School Suspensions (Year-To-Date) Greater than 10 Days. Multiple short-term out-of-school suspensions are accumulated and summed for the entire school year. A student can only be counted once in this category, even if additional out-of-school suspensions occur, so the value of Field 48 can only be zero (0) or one (1). An out-of-school suspension for any part of a day is calculated as a full-day suspension.

Definition: Indicate the district claiming this student for the Special Education Federal Individuals with Disabilities Education Act (IDEA) headcount.

This field identifies the student who may be served in multiple districts. The districts involved must determine among themselves which district will submit the student for the IDEA headcount.

Use this field **only** for special education students who are split/shared between **districts**. These students would be considered Pupil Accounting Population III: Cooperative Education special education students.

All special education students must be counted, birth through age 26. All districts may **report** a special education student for membership but only one district can **count** the student for the IDEA unduplicated count. This field identifies the district that is counting the student for the unduplicated headcount. When a student is split/shared between the districts, the district counting the student for the IDEA headcount is listed.

- 3 The operating district identified in Field 3: Operating District Number counts this student for the IDEA headcount.
- 4 The resident LEA identified in Field 4: Resident LEA Number counts this student for the IDEA headcount.

This field provides a method of submitting a single unduplicated record for federal count purposes for the agreed-upon district claiming the student. Code “3” should be used for special education students who are not split/shared between districts.

Definition: Primary reason why the child left or completed the early childhood program or service.

- 063 Used for a child who enrolled and completed regularly scheduled or prescribed program.
- 064 Parent makes a request to transfer out of one early childhood program and into another early childhood program, e.g. from Head Start to a Michigan School Readiness Program, Early Childhood Special Education, etc. This request results in the child making a transfer prior to completion of the original program.

Definition: Eligibility conditions are defined in Part B and Part C of IDEA 97. In order for a child to be counted in codes “1” and “3,” s/he must have an Individual Family Services Plan (IFSP).

- 1 Both Part B and Part C of IDEA. The child is between the ages of birth and 3 years, and has been identified as eligible for services under one of the categories defined in the Michigan Administrative Rules for Special Education and Part C of IDEA.

- 31 Home. Services are provided in the principal residence of the child’s family or caregivers or family day care.
- 33 Program Designed for Typically Developing Children. Services are provided in a facility regularly attended by a group of children (regular nursery school, preschool, or day care). - 34 Service Provider Location (outpatient). The child receives services at a center, clinic, or hospital where the infant or toddler comes for short periods of time (e.g., 45 minutes). These services may be delivered individually or to a small group of children.
- 35 Program Designed for Children with Developmental Delays or Disabilities. The child is in an organized program of at least one hour in duration provided on a regular basis. The program is usually directed toward the facilitation of one or more developmental areas. Examples include early intervention classrooms/centers and developmental child-care programs.
- 36 Hospital (inpatient). The child is in a hospital or a residential medical facility. The child must be receiving services on an inpatient basis.
- 37 Residential Facility. The child is in a residential treatment facility that is not primarily medical in nature, where the infant or toddler currently resides in order to receive early intervention services.
- 38 Other Setting. The child is receiving a service not included in the settings or programs listed above. For example, if the only component of the infant's early intervention services is parent counseling during which the child is not present, and the child receives no direct service, count as "other."

Ethnic List of Countries and Languages

The following countries and languages are provided to assist the district in selecting the “country of origin” and the “primary language” for students who are not native English speakers. This guide is not definitive. The information in it is based on the *2001 World Almanac and Book of Facts*, World Almanac Books, Mahwah, New Jersey, 2001, and *Ethnologue: Languages of the World 14th edition*, B. Grimes ed., SIL International, Dallas, Texas, 2000. More than 6,800 languages and dialects are referenced in the *Ethnologue*, and it is not possible to list them all. In addition, political boundaries and countries undergo continuous changes.

Items in parentheses under language indicate alternate names for a language or the country’s official language. If a language is not listed, consult the online Ethnologue (www.sil.org/ethnologue) or contact the Office of Field Services at (517) 373-6066 for assistance. Use of parentheses or other non-alpha characters will cause a *fatal error*.

Structure for Student Expulsion

Definition of Expulsion for Purposes of SRSD Reporting. Expulsion of students from the school district refers to students who have been officially removed by board action from the formal educational setting due to any of the codes listed in Field 115: Incident Type. This would include students placed in an Alternative Educational Setting, for example, as well as those for whom the district continues to provide education services within the home. Such placements are reported in Field 120: Follow-up after expulsion.

Expulsion and Exit Codes: Students who are expelled from education in the school district and continue to receive services from the district are not reported as having exited the district. Students who continue to receive services are reported in Field 23: District Exit Status as code "19" (expected to continue in the same school district). Field 24: Exit Date would remain blank. This situation will require that Field 120: Follow-up after Expulsion contain code "3" (placed in alternative school) or code "7" (instructional services in the home).

If completing the special education disciplinary infraction fields (Fields 47-49 for spring 2004, or beginning end-of-year 2004, Fields 47a – d or 48), there is no longer a requirement to also complete Fields 112 through 120. This is true unless the student has been officially expelled from the school district, that is, disciplinary procedures relevant to students without disabilities have been deemed appropriate and applied in this case.

Field 112: Date Incident Occurred

Submission Cycle:	Fall, spring and end of year
Field use:	In the future, this line will explain the specific reporting use.
State of Michigan office contact:	This line provides the general office name, phone and e-mail address
Field specification:	10-character
Record position/type:	823-832, integer with slashes
Database field name:	IncidentDate
SIF tag:	◇
Code/format:	Month, day, and year (MM/DD/CCYY)

All dates must appear in the following manner: DD must be a number between 01 and 31, and CCYY represents the year. For example, May 8, 1987 = 05/08/1987. Each MM must be one of the following:

01	January	07	July
02	February	08	August
03	March	09	September
04	April	10	October
05	May	11	November
06	June	12	December

Dependencies with other fields: In the future, this line will explain the dependencies between this field and others.

Programming edits: Error check to ensure a valid date is in this field and not out of range. If this field is used, Field 113: Date Expelled must also contain a valid date.

Fatal errors occur when the field contains an invalid date.

Warning: A warning is issued when the field contains a valid date, and Field 23: District Exit Status is "19," or Exit Status does not contain "10" (expelled).

Warning message: Field 23: District Exit Status indicates the student is continuing his/her education in the school district. If the student was permanently expelled from the school district, or expelled for more than the remainder of the current school year, the Exit Status code should be "10."

Definition: The date used in this field is the day the incident occurred that led to the expulsion.

Common entry errors: The entry of the current date instead of the date the incident occurred.
